WORK EXPERIENCE

Foreman

May, 2005-Present

Nucleus Exhibitions and Event, Dubai

- Oversee and manage all aspects of carpentry and construction projects within Nucleus Exhibitions.
- Lead and supervise a team of carpenters and construction workers, ensuring work is completed efficiently, on time, and to the highest standards of quality.
- Interpret blueprints, plans, and specifications to guide construction activities, ensuring compliance with safety regulations and project requirements.
- Coordinate with project managers, designers, and clients to understand project objectives and scope, and provide input on feasibility and construction methods.
- Schedule and allocate resources, including materials, equipment, and labor, effectively managing project budgets and timelines.
- Conduct regular on-site inspections to monitor progress, identify potential issues, and implement corrective measures to maintain project schedule and quality.
- Maintain a safe and clean work environment, enforcing strict adherence to safety protocols and ensuring compliance with OSHA regulations.
- Collaborate with subcontractors and vendors, negotiating contracts, and overseeing their work to ensure compliance with project specifications and standards.
- Train and mentor junior carpenters, providing guidance and support to enhance their skills and performance.
- Maintain accurate project documentation, including daily reports, work schedules, and material inventory.
